C. Overview of Contracts for Units 2 & up

1. For all contracts from Unit 2 and higher, we will write a specific contract for each student.
2. Gather information prior to writing contract
 - Use Unit Questionnaire form
 - feedback from staff, counselors, work supervisors, and evaluations
3. Meet with student
4. Pray
5. Write the contract

The **Student Learning Contract** is used for planning the work that will be included on this contract. It also includes places for the students to track their progress on each assigned part of this contract.

6. Prioritize their work

Always counsel with the student and go over each assignment thoroughly. Discuss with them how to prioritize their workload and manage their time. Staff and student should ALWAYS sign the contract when the counseling is complete.

7. Track their progress as they work on their contract.

Students should use their **Daily Goal Sheet** to keep track of their work. In addition to the regular discussions the teachers have with the student as they are doing their daily studies, one teacher should have a specific discussion with the student at least one time a week to assess the general progress being made on the contract work.

- Is the student making progress on all the different parts of their contract?
- Is the student on track to complete all the contract work in the one month time period for this contract?

8. End of contract evaluation

When the student has completed all their work on the contract, they should write an evaluation of how this contract work helped them. Have them use the goals from page 1 of the **Student Learning Contract**.

9. Certificate of achievement

Celebrate their completion of the contract by awarding them a **Certificate of Achievement**.
